March 20, 2020

To all the Adventist Employees and Members
Southern Asia Division of SDA

Dear Brother/Sister in Christ,

Greetings of Peace and Health from Southern Asia Division Officers!

We the Southern Asia Division Administrators write this note to wish you safety and protection in difficult times like these. A virus “corona” has changed the world’s scenario. We are living in an unsafe world. Truly we are living in the end time, ‘Jesus is coming soon’.

It is our desire that we obey the state/national laws for safety and health. Please be serious in following the health instructions to avoid contamination. We shall strive to keep focusing on Jesus the “Rock of Ages”. He is able to care and protect all of us in times like these.

We have the promises of God and a sure word of prophecy. It is expected that in the end time whole world will be shaken because natural calamities, economic instability and political turmoil etc. It is time to seek God more intensely and grow spiritually strong. It is time to turn to God more intensely.

Every day we are praying for each member, school, hospital and church. We are called to be “Remnant”, a special people called by God, therefore let us play the role of being anchor of healing and hope. Through our lives let us be the balm of Gilead to people around us.

Please note that recently GC Executive Committee (zoom conference) has taken action to postpone 61st GC Session by one year (May 20-25, 2021), keep the world church and Global events in your prayers. May the good Lord bless and keep you.

With warm Christian regards,
For Southern Asia Division Administration

Measapogu Wilson, Executive Secretary
Southern Asia Division of Seventh-day Adventist
